

Delivery Review Guidelines

Delivery Reviews are your way to rate and share feedback about your **delivery experience** on noon. This includes aspects like delivery timing, packaging condition, handling of the order, and the behavior of the delivery partner.

Who Can Submit a Delivery Review?

Any noon customer with at least one delivered order can participate.

What to Include in Your Review

When writing a review, please base it on your direct delivery experience, such as:

- Whether the delivery was on time.
 - Whether the packaging was intact and the items arrived in good condition.
 - The professionalism and courtesy of the delivery partner.
 - Any handling issues you noticed during delivery.
-
