

Easy Installments- Everything You Need to Know

Easy Installments (also known as Easy Payment Plan or EPP) lets you split eligible purchases on noon into monthly payments when you use a supported credit card. The plan applies only to orders with a total value of 500 EGP or more.

How to Use It

1.

At checkout, select “Easy Installments” if your card is eligible.

2.

If not available automatically, you may request a plan manually through your bank by providing:

◦

Merchant name: noon.com

◦

Order date and amount

◦

Order ID

◦

Desired tenure (e.g. 6 months)

Prepaid cards and Cash-on-Delivery are not eligible for installments.

Installment Plans & Interest Rates

Installments and interest depend on your bank. For example:

•

Commercial International Bank (CIB)- tenures from 6 to 36 months, interest starts at 8.6 %.

•

ALEXBANK, National Bank of Egypt (NBE)- 6-month plans with no interest.

Always check your bank’s schedule for exact rates and tenure options before proceeding.

After Order: Tracking & Confirmation

Once you choose installments and the payment is processed, you’ll receive a confirmation email. The installment details will also appear on your first credit-card statement.

Your bank handles repayment. It may take 3-5 business days for installment charges or changes to reflect in your bank statement.

Returns, Cancellations & Refunds

If you return an item bought via installments:

- You receive a refund credited to your noon Credits account, not as cash.

- The installment plan remains active. You must continue paying monthly installments under the original plan terms.

If you cancel the order before shipment, the refund still goes to your noon Credits, but the bank may still expect payment. You must contact your bank for cancellation of your installment plan.

Additional Information

- Minimum eligible order is 500 EGP.
- Only supported for credit cards from partner banks, not for prepaid cards or COD orders.
- Bank interest, processing fees, and credit limit eligibility vary depending on the bank. Always check the plan details before confirming payment.
