

Payment Methods on noon

Credit and Debit Cards

You can pay using Visa, MasterCard, or AMEX cards. Enter your card details at checkout to complete the payment.

Cash on Delivery (COD)

- You can pay in cash when your order is delivered. The amount shown at checkout is the exact amount you will pay, including product price and delivery fees.
 - Some items must be paid for using prepaid methods, and COD may be restricted if a customer has too many open orders.
 - COD payments are allowed only for orders less than EGP 25,000.
-

noon Wallet

- Your noon Wallet is a digital balance linked to your account. Refunds may be credited to your wallet, and you can use this balance to pay for future orders.
 - If your wallet balance doesn't cover the full amount, you can pay the remaining balance using Cash on Delivery or a credit/debit card.
-

Apple Pay

- Apple Pay is available in selected countries on the noon app when using a supported device.
- If Apple Pay is available for your country, it will appear at checkout.
