

Managing Your Wishlist

The Wishlist feature helps you save and organize your favorite products for future purchases. You can create multiple wish lists based on your interests, manage them easily, and choose to keep them private or share them publicly.

Add Items to Wishlist:

Click the **'heart icon'** next to any product you want to save.

To view or manage your saved items, click the **'heart icon'** at the top right corner of the page to open your Wishlist.

Create and Manage Wishlist:

- You can create multiple wish lists to organize products by type or interest.
- Click **'Create New Wishlist'**, enter a name, and use the toggle to set it as your **'default Wishlist'** if desired.
- The default Wishlist is your primary list where all new items are saved automatically.

Change Default Wishlist:

To set another Wishlist as your default:

Open the Wishlist section, click **'More'**, and select **'Make this default Wishlist'**.

Other Wishlist Options (under “More”)

-

Edit – Rename your Wishlist and click **Save**.

-

Enable/Disable Public Sharing – Choose whether your Wishlist is private or visible to others through a shared link.

-

Empty Wishlist – Remove all items from a Wishlist in one go.

Note: Shared Wishlist are only accessible via the shared link and are not publicly searchable on noon.
