

Refunds- Process & Timelines

noon follows a simple refund process. Refunds are issued after your return is collected and inspected, or when a cancellation is completed before shipment. The refund source and timeline depend on how you originally made the payment.

How Refunds Work After Returning an Item

- Once your item is picked up, it goes through a quality check (QC).
- If the item meets the return conditions, noon will initiate your refund based on the original payment method.
- If the item does not pass QC, the return may be rejected and the product will be sent back to you.

Payment Method and Refund Source

Refunds are automatically routed as follows:

Payment Method	Refund Source
Credit/Debit Card	Back to the same card
Credit Card EMI	Same Card
Cash on Delivery/Card on Delivery	noon Credits
BNPL (e.g., ValU)	BNPL Provider
Gift Cards/noon Credits	noon Credits

Note: Once a refund has been initiated, the refund method cannot be changed.

Refund Timelines

Refund processing times vary based on your payment method:

-

Credit/Debit Card: 5–7 working days

-

Cash on Delivery: Within 24 hours to noon Credits

-

BNPL: Reflected within the provider's timeline (typically within 24 hours)

-

noon Credits/Gift Cards: Within 24 hours

-

EMI: Refunded to the same card

If your refund is issued but not visible on your bank statement after the stated timeframe, please contact your bank for more details.

Refunds for Cancellations

- If you cancel your order before it ships, your refund will be processed immediately.
- If the order has already shipped, you will be refunded once the item is returned to noon.

Partial Refunds

You may see a partial refund when:

-

Your order includes multiple items, and only some have been returned

-

Shipping or COD fees apply (These fees are non-refundable once an item has been delivered)

How to Check Your Refund Status

You can track your refund at any time:

Account → Orders → Select Your Order

Look for the refund status indicators such as *Processing*, *Approved*, or *Declined*.

If your refund status does not update after the expected timeframe, contact customer support for assistance.

Delayed Refunds

If your refund is marked as Approved, but the timeline has passed:

-

For card refunds: Contact your bank for an update

-

For wallet refunds: Check your noon Credits balance

-

For BNPL refunds: Contact your BNPL provider

-

For EMI refunds: Check your noon Credits section

If none of these resolve the issue, reach out to our [customer support](#) team, and we will help you investigate.
