

noon Lockers

noon lockers let you collect your shipments from secure, self-service locker locations using a unique PIN or QR code. This option is available only for eligible noon shipments and allows quick, convenient pickup without waiting for home delivery.

How to Use noon Lockers during checkout:

- Select '**Add a New Address**'.
 - Choose '**noon Locker**' from the available locations near you.
 - Review the locker's location, timings, and details.
 - Save the locker as an address and proceed with your order as usual.
 - You will receive notifications and an email once your shipment is placed in the locker.
-

Why a Locker Option May Not Appear

- No locker is available near your location.
 - The item is oversized (e.g., large appliances, TVs, refrigerators).
 - The item is fragile or temperature-sensitive (e.g., chocolates, frozen or chilled items).
 - Your order contains more than four items.
-

If a shipment cannot fit inside the locker after dispatch, our team will deliver it to your home address instead.

Tracking Your Locker Delivery

Once your shipment reaches the locker, the Orders tab will display:

- The locker code or PIN
 - The locker's location link
 - The pickup window and countdown timer
 - You will also receive email updates and app notifications, including a reminder when only 48 hours remain to collect your item.
-

Picking Up Your Shipment

- Visit the locker location within the 5-day pickup window.
 - Enter your unique PIN on the locker screen (available in SMS, email, and the Orders tab).
 - Use your QR code from My Account > QR Code in the noon app.
 - The locker will open automatically, and your pickup is complete.
-

Pickup Window & Refunds

- Shipments remain in the locker for 5 days.
- If not collected, the package is returned to noon and refunded based on your payment method:
- **Wallet credits** → refunded to wallet within 24 hours
- **Card payments (if refund preference is set to card)** → refunded to card within 48 hours (bank may take up to 7 business days to reflect the amount)
- **Mixed payments** → each portion refunded to its source
